

# Birdy, Maybe

Maybe, I know it's just maybe  
And we're only dreaming  
For how this will go, ooh

But maybe, one day this daydream  
Would turn into real things  
For all that we know, ooh

We could be doing anything that we love  
Just be carried by the way the wind blows, ooh  
You could be doing anything you dream of  
If you believe in the things that make you strong

Someday, we'll meet on the high street  
We'll laugh about when we  
Worried about what we might be

Then maybe, we'll talk about old days  
We'll smile in our old ways  
You'll always be part of me

We could be doing anything that we love  
Just be carried by the way the wind blows, o-o-oh  
You could be doing anything you dream of  
If you believe in the things that make you strong

You could be doing anything you dream of  
If you believe in the things that make you strong

Maybe, I know it's just maybe  
And we're only dreaming  
For how this will go, ooh

Just maybe  
You could be doing anything you dream of  
Maybe  
Maybe
