

Birdy, River Song

If I give you all I have, will you share your song
Do you ever feel sad on the long ride home
Do you feel at times that you don't belong

Time

Another season turns the page
Living in a kind of dark age
Could you light the way

Life

Does the feeling ever die
Can you understand how strange it is
To be alive?

Seen centuries come and go
Is the future like the past
Do we shine a temporary glow
Or are we built to last
Do you ever feel at times like it's all too fast

Time

Another season turns the page
Living in a kind of dark age
Could you light the way

Life

Does the feeling ever die
Can you understand how strange it is
To be alive

To be alive

If I give you all I have, will you share your song
