And when you hear this story you'll say it's aight though

Yo yo yo yo Cool V, why don't you give me a cue

One more cue, and then I'm ready to go in

(Verse One)

Don't you like when the winter's gone

And all of a sudden it starts gettin warm

The trees and the grass start lookin fresh

And the sun and sky be lookin their best

Birds be singin, flowers be bloomin

A lot of brand new cars be zoomin

Fly girls lookin the best they can be

And the guys be dukey dukey Dan you see

Besides all that I like the warm weather

Cause that's when you can get yourself together

But I like Easter time with a grin

Cause when I was little we used to go to Coney I-land

We used to eat a lot of stuff like cotton candy

Cause back then, it was like fine and dandy

And your plaid suit jackets, they were the shits

The good ol' days, was back then

And the reason I reminisce, cause..

(Chorus: Biz sings - voice slowed down)

It's spring again

Everybody know it's spring again

To the girls and boys and people above

This is the time to fall in love

(Verse Two)

Now girls - have you ever broke up with your boyfriend

And you felt that the world was comin to an end

Sittin around the house poutin for no reason

Just because you thought your man was skeezin

For a couple of days, look gloomy and gray

Thinkin about the ol' happy days

All of a sudden, the telephone ring

He beg for your forgiveness and you know what that brings

Joy and happiness into your life

Before you felt like your heart was stabbed by a knife

I'm tellin you gi
