

Bjork, victimhood

Victimhood

I heed the call

To step out of victimhood

Has a saintly glow holier than thou

It erased my shadow, shadow

Only bird's-eye view can help me transcend this archetype

Who am I that this is is has happened to?

Victimhood

Rejection it left a void that is never ever satisfied

Sunk into victimhood

Felt the world owed me love

Only bird's-eye view can help me transgress out of this hole

Who am I that this is is has happened to?

To transgress us beyond our tragedy

I took one for the team

I sacrificed myself to save us

I rejected myself

Sacrificed myself

Felt sorry for myself

To transgress us beyond our tragedy

I sacrificed myself to

To transgress us beyond our tragedy

I sacrificed myself

Victimhood

I heed a call out of victimhood

Victimhood

Out of out of out of victimhood

Here I go now
