

# Black Rain, Dying Breed

i think a witness the decline of a civilization  
we are mourning a lost generation  
what the hell happened to you folks?  
why don't you make any sound?  
you looked like a joke  
always bragging around

we're still standing  
don't wanna go  
like a dying breed

dying breed  
dying breed we're the last of our kind  
dying breed dying  
dying breed  
like a dying breed

the fall of our legion  
the fall of a new generation  
the memory of a flame that didn't last  
not even a shadow of the past

we passed the point of no return  
killing one another  
all burnt down to ashes  
all dead n' gone

one bullet from my old enemy  
one bullet from my girl  
one last shot from you my old friend  
and i fall  
dying
