## Blackfield, Pain

Here I'm standing on the sea shore She is gone Now she's gone All the angels praying for me As I fall As I fall

While I'm melting in the rain Deep in pain She is so far Will we ever meet again As friends After so long?

To my nightmare with the devil I'll go strong I'll go strong All my friends now try to save me What a joke What a joke

While I'm melting in the rain Deep in pain She is so far Will we ever meet again As friends After so long? "(repeat twice)"
