

Blake Babies, Outta My Head

It's my island, get off.
It's where I'll live.
I'll shake your face off my mind.
There'll be no trace of your kind.

I'll put it outta' my head, it's all I can do.
Nothing ever happens, where are you?
I'll try not to think, today's the new day.
I'll waste my time some other way.

I had a feeling or so I thought.
What seems true is often not.
I'll take my body and go away
and if I want to, I can stay...I can stay.

I'll put it outta' my head, it's all I can do.
Nothing ever happened, who are you?
I'll try not to think, today's a new day.
I'll waste my time some other way.

I'll put it outta' my head it's all I can do.
Nothing ever happened, where are you?
I'll try not to think, today's a new day.
I'll waste my time some other way.
