

BLANKA (PL), Solo (SMYLES Remix)

Baby, it's kind of crazy
how else to phrase it
with you I lost've my senses
Baby, what happened to ya?
I thought I knew ya
But now it's time to face it

Ya hot and cold,
high and you're low
messin with my mind
no oh oh that's not how it goes
so let me spell it out

Now I'm better solo solo
I never let me down didi down down down
and now I'm gonna show ya show ya
show you what it is your missing out
Now I'm better solo solo
I never let me down down didi down down down
Now I'm gonna show ya show ya
How I be getting down (solo)

Tell me
Now was it worth it?
Playin' me dirty,
but now who's laughing baby?
Watch me
All eyes on me now
Bet you regret how
What goes around comes around

Ya hot and cold,
high and you're low
messin with my mind
no oh oh that's not how it goes
so let me spell it out

Now I'm better solo solo
I never let me down didi down down down
and now I'm gonna show ya show ya
show you what it is your missing out
Now I'm better solo solo
I never let me down down didi down down down
Now I'm gonna show ya show ya
How I be getting down (solo)

No no, I'm going solo
(yeah) ya better better, watch me now
cause I know how to let go
gonna make it make it on my own
Oh, oh no, I'm going solo
(yeah) ya better better, watch me now
cause I know how to let go
so it's clear to see I'm

Now I'm better solo solo
I never let me down didi down down down
and now I'm gonna show ya show ya
show you what it is your missing out
Now I'm better solo solo
I never let me down down didi down down down
Now I'm gonna show ya show ya
How I be getting down (solo)
