

Bleach, Warp Factor Five

Hold on, hold on it's a heavy scene
Warp Factor Five with me
Come along won't you come with me
Warp Factor Five you see

This world is buggin' outta control
And there's one sure thing for the Godly soul
Outta sight to your cosmic home
To your cosmic home, your cosmic home
Ride along to where I'm going
Down the road of gold to your diamond home
May you leave tonight past the speed of light
May you leave tonight for Paradise
Warp Factor Five

So long, so gone to a better scene
Warp Factor Five with me
Warp Factor Five you see
