

Blood Or Whiskey, Rudy

There's someone coming down for you Rudy
There's someone coming down for you
There's someone coming down for you Rudy
There's someone coming down for you
I do it for you don't you know that
I do it for you
I do it for you don't you know that
You know I do it for you
You're causing problems in this town
Drinking, drugs acting the clown
I hope some day you realise
You can't be living your life through these eyes.
