Bloodbath, Iesous

Stigma fury Throw him bound and gagged upon soil The red sun burning Burning tear the soul of Gods only son

Inhuman is elite anger Release my breath the violence burns in me The words I speak to him suffocating dark

Poison blind eye Lashing bleeding shadows in the sun The madness swirling Swirling lesous

Constant suffering heaving breath Cross hangs twisted round his neck

Eeso Yeshua Iesous

Absorb now this pain spirit engaged All hope is slain die by our rage
