

Blue Deep Shorts, Shout

Get me a big bucket
Filled to the brim with cold water
Pour it on my head and wait
Nothing I have ever felt has made me lose my head,
I've never thought I would need to be on the run

Shout to me
Cause now it's my time
To find my way back to reality
Shout to me
Cause I really wanna be back
And feel that you're here with me

Your face and a smile on it
There's nothing more I need at the moment
I don't even care, what is true
I can't figure out what happened
I know, that I've never felt better
I know you will take care of me

Shout to me
Cause now it's my time
To find my way back to reality
Shout to me
Cause I really wanna be back
And feel that you're here with me
