

# Blue System, How Will I Know

Baby how will I know  
When I'll meet an angel  
How will I know  
That I should go, baby, go  
Baby how will I know  
When I'll meet an angel  
How will I feel and see  
That you will carry me

Baby, I'll make love to you  
It's a secret rendez-vous  
Feel your heart will move  
If you leave me girl  
Baby, oh I'm crying loud  
That your love will knock me out  
Baby, oh in a million years I'll searching you

Baby, oh we leave behind  
All I want is second time  
Baby, oh no gold can buy  
What I give to you  
Baby, oh we live this dream  
Like an old, old movie scene  
Baby, oh I lose my sleep  
If you leave me girl

Oh, I will give you all of my heart  
And heaven naturally - oh baby  
Come and try a brand new start  
This love will last eternally
