## Blue System, It's All Over

I just can't hide my feelings It's just the way I am This love has such a meaning We'll make it if we can

Tell me baby, where did we go wrong Sooner or later we'll end up on our own

It's all over, all over again You said to me, sorry, can't we just be friends It's all over, all over, it happened again No time to ignore it, we'll come to the end

Tomorrow is forever Love is a sacrifice There'll never be a never Halfway to paradise

Tell me baby, why you'll say goodbye Just for the maybe, let's give it just one more try

It's all over, all over again You said to me, sorry, can't we just be friends It's all over, all over, just look what you've done Oh, sooner or later, we're all alone We're all alone
