

Bon Iver, U (Man Like)

i will see you off now
down the back of the ridge
there's just something that I got to show you
there's domer and there's rot
and the common ease
it ain;t nothing what you say is true

with your long arms, try
and just give some time
presently, it does include my dudes
ain't your standard premonitions
all this phallic repetition
by, you tell yourself
a tale or two

man like you
man, improve

well, I know that we set off for a common place
and the lines have run too deep
how much caring is there of some American love
when there's lovers sleeping in your streets?

so Cerberus Ride!
Bring those dead alive
like pirate Jenny on the Black Freighter
it;l be be a long day of fixing
make something else yo mission
boy, this shit's so hard to cue
