

# Bon Jovi, Hush

HUSH

She says baby  
And I love it when she calls me baby  
She said its four a.m. why dont you grab your shoes, come on over, and  
then baby  
Oh, you drive me crazy  
I know she knows she drives me crazy  
Then shell stay up, she can be a pill  
She can play and well dance out in the pouring rain  
And Ill let ya drive me crazy

We don't talk about love  
We don't talk about us  
What we don't say with words we say when we touch HUSH  
Come wrap your arms around me HUSH  
I don't want to talk tonight no HUSH  
What we've gots more than a crush  
We write the book each time we touch HUSH

I said nothing  
Sometimes the words can end this song  
There are ten things I could have said tonight  
We dont waste time on that shit  
Somehow we rise above it

We don't talk about love  
We don't gotta talk about us  
What we don't say with words we say when we touch HUSH  
Come wrap your arms around me HUSH  
I don't want to talk tonight so HUSH  
What we've gots more than a crush  
We don't have to say too much  
We write the book each time we touch HUSH

We don't gotta talk about junk  
We don't gotta talk about us  
What we won't give away  
It ain't that much HUSH  
Come wrap your arms around me HUSH  
I don't want to talk tonight so HUSH  
What we have gots more than a crush  
We write the book each time we touch HUSH

Honey hush  
Honey hush
