

Bon Jovi, I Wish Every Day Coule

Verse

The last time that I saw her
Was the night she said goodbye
She said that love's a stranger
And it's sure to pass you by
As she packed up her belongings
She wouldn't look me in the eye
But I could see a tear roll
Off her face
As we both tried so hard
Not to cry she said

REF

I never wanted the stars
I never shot for the moon
I like them right where they are
All I wanted was you
So baby just turn away
Because I can't face the truth
All I'm tryin' to say
Is all I wanted was you
I tried so hard to remember
Where when how why love went away
I tried to drown myself in pity
But the whiskey kept calling your name
I bought you fancy cars and diamond rings
All the things that money brings
And the servants to paint the sky blue
And I worked so hard seven days a week
And built a fortress for your heart to keep
If I could wrap these words up for you

REFRAIN

I may ave built for you a dreamhouse
But never thaught you were alone
I filled the party up with company
But never made our house a home
All I got is my guitar these chords and the truth
All I got is my guitar ... but all I want is you
