

# Bon Jovi, Last Cigarette

Regrets are all you left, on your lipstick stains  
Take a picture of our past there in that ashtray  
We had our fun, I used to light your flame  
Like the dancing smoke that rose we tried to find our way

No one told me, she told me

Your love's like one last cigarette  
Last cigarette, I will savor it  
The last cigarette  
Take it in and hold your breath, hope it never ends  
But when it's gone, it's gone  
The last cigarette

Just to breathe reminds me of what used to be  
The smoke's the ghost that keeps you close when I can't sleep  
Don't ask the past to last, it's about to change  
The memories don't answer when I call your name

No one told me, she told me

[Chorus]  
Your love's like one last cigarette  
Last cigarette, I will savor it  
The last cigarette  
Take it in and hold your breath, hope it never ends  
But when it's gone, it's gone  
One last cigarette, last cigarette  
One I can't forget, the last cigarette  
Right there at my fingertips, got your taste still on my lips  
Right or wrong  
You're still gone, gone, gone

No one told me, she told me  
You always lose the girl in a Brian Wilson world

[Chorus]

No one told me, she told me  
The Last Cigarette
