

# Bon Jovi, Learning How To Fall

I was walking on a wire  
Looking down, there was no net  
Now, I'm standing at your door  
Me and my last cigarette

Yeah we've been through this before  
Too late to cover up my tracks  
Damn the fool who begs for more  
I'll take my past and paint it black

Now the circus has left town  
This clown has got to get his feet back on the ground

Chorus:  
I'm learning how to fall  
Learning how to take a hit  
Had to walk before I crawled  
It was winner take it all  
Now I'm learning how to fall  
Yeah, I got the hang of it

I was standing in the light  
There were faces all around  
I put my gloves up for a fight  
One sucker punch and I was down

Chorus

I was flying through the clouds  
Pucker up, it's time to kiss the ground

Chorus
