

Bon Jovi, Love Me Back To Life

This world don't give you nothing it can't take away
Everybody holding on to something
Nobody wants to fade away

No forgiveness on the streets of this town
I left my patience at a traffic light
There's no denying that I almost lost it
Threw in the towel, too tired to fight

Tonight I need you
More than yesterday
Tonight I need you

[Chorus:]
Take me, touch me, hold me like you mean it
Make me come alive
Hurt me, heal me, come and make me feel it
Rescue me tonight
Love me back to life

These days I'd trade sight for feeling
There are days my feeling's gone
Can't figure out whose life I'm living
I don't know right from wrong

When I lost my faith
You found it and gave it back to me
There's a new light on your halo; it took blind eyes to see

That I need you
More than yesterday
Yeah, I need you

[Chorus:]
Take me, touch me, hold me like you mean it
Make me come alive
Hurt me, heal me, come and make me feel it
Rescue me tonight
Love me back to life

[Guitar Solo]

[Chorus:]
Take me, touch me, hold me like you mean it
Make me come alive
Hurt me, heal me, come and make me feel it
Rescue me

Take me, touch me, hold me like you mean it
Make me come alive
Hurt me, heal me, come and make me feel it
Rescue me tonight
Love me back to life
Love me back to life
Love me back to life
Love me back to life
