

# Bon Jovi, Taking It Back

I've been away so long I hardly knew the place  
It's been too long since I've been around  
Just like I rolling stone I ain't go no home  
But my boys are back in town  
It's been two long years that I've been on the run  
From lawyers, lovers, monies and a lawman's son  
You though tit was the last you heard from me  
Well you better back up to catch up with me  
'Cause I'm livin' in the fast, speeding like a steam train  
Just before I fall, just before I fall off the track

Chorus:

Taking it back  
I'm taking it back  
Taking it back  
You took it away, took it away  
All I can say is we're taking it back  
I'm the same old dog that I used to be  
The word's all over town that you've been looking for me  
I'm no different that I was before  
Give you what you need and then I'm out the door  
'Cause I'm livin' in the fast lane, coming like a hurricane  
A snake without a rattle, baby that's a matter of fact

Chorus:

Taking it back  
Taking it back  
Taking it back  
You took it away, took it away  
All I can say is we're taking it back

I've been away so long it's good to see your face  
Barkeep, won't you buy me a round?  
Raise a glass to the good times past  
Then we'll tear this damn place down

Chorus:

Taking it back  
Taking it back  
Taking it back
