

# Bon Jovi, You Can't Lose At Love

You can lose at cards  
You can lose your keys  
You can lose the house or lose the lease  
You can lose your car, you can lose the race  
You can lose your mind or lose your faith  
Take a look around and hear what I've gotta say  
You can't lose at love

No, you can't lose at love  
You can't lose at love  
You can't lose at love  
Chose anything you can dream of  
No, you can't lose at love

We could lose the plot  
Or we could lose our way  
But I ain't going to lose  
These ain't good games we're playing  
Let me make you an offer too good to refuse  
No, you can't lose at love

No, you can't lose at love  
You can't lose at love  
You can't lose at love  
Chose anything you can dream of  
But you can't lose at love

Now we just might roll a seven, these ain't loaded dice  
We'll never get to heaven from this driveway tonight  
You've heard a million promises that's never come through  
Baby I'm telling you we're due

You can't lose at love  
You can't lose at love  
Chose anything you can dream of  
But baby, you can't lose at love

Take a chance on me  
Cause you can't lose at love  
Take a chance on me  
No, you can't lose at love  
Take a chance on me  
You can't lose at love  
No, you can't lose at love  
You can't lose at love  
You can't lose  
You can't lose
