

# Bondax, Giving it All

Electric, I feel you  
I feel you, oh  
Start line, fall down  
For you, oh

And I never wanted to let you go  
To hold someone  
Somebody else, no  
Breaking hearts everywhere you go  
Tell me where you go  
?Cause babe our hearts were meant to unfold

I keep giving it all, just to love someone  
I keep giving it all, just to love someone  
I keep giving it all, just to love someone  
I keep giving it all, just to love

Star sign, I think I love you  
Giving my heart to you  
I?ll be giving it all  
Stop sign, I think I love you  
Giving my heart to you  
?Cause babe our hearts were meant to unfold

No one, before you  
No one, no  
Sky falls, around you  
Before I, let go  
And I never wanted to let you go  
To hold someone  
Somebody else, no  
Breaking hearts everywhere you go  
Tell me where you go  
?Cause babe our hearts were meant to unfold

I keep giving it all, just to love someone  
I keep giving it all, just to love someone  
I keep giving it all, just to love someone  
I keep giving it all, just to love

Stop sign, I think I love you  
Giving my heart to you  
I?ll be giving it all  
Stop sign, I think I love you  
Giving my heart to you  
?Cause babe our hearts were meant to unfold

Stop sign, I think I love you  
Giving my heart to you  
I?ll be giving it all  
Stop sign, I think I love you  
Giving my heart to you  
?Cause babe our hearts were meant to unfold
