

# BONES, Dirt

[Intro]  
What?  
SESH  
What?

[Chorus]  
You say you got them guns but I've never seen you bang (Bang)  
You say you got them drugs but I've never seen you slang (Slang)  
You say you in the game but I've yet to see you play (Play)  
You say you're going hard but nobody feels the same (No)  
You say you got them guns but I've never seen you bang (Bang)  
You say you got them drugs but I've never seen you slang (Slang)  
You say you in the game but I've yet to see you play (Play)  
You say you're going hard but nobody feels the same

[Verse]  
I'm swerving off, my eyes closed  
Graveyard's where I call home  
Razor blade on my fuckin' bones  
Touch me and I'ma cut you off  
Raindrops on my white skin  
Turn ghost and I'm in my zone (What?)  
Hair long, my blunt's short  
Always smoke so we rollin' more  
Coming down, coming down  
See me but don't hear a sound  
Ridin' 'round, ridin' 'round  
Cemetery Blunts in the background loud  
Now now, burn it all to the ground  
To the ground, ground  
Bones back in town  
I ain't got no fucking chain, I ain't got no diamond ring  
Young Justin Timberlake, all these bitches know my name  
If you see me out in public then you know I got the blade  
If you see me on the stage (What?)  
You know I got the blade (SESH)  
Hundred pills in my pocket but that shit is not for me (No)  
I feed 'em to my girl and watch her drop down to her knees (What?)  
Ghosts in my head, I got ash on my jeans  
These women tryna scheme 'cause I look like Dawson's Creek (What?)

[Chorus]  
You say you got them guns but I've never seen you bang (Bang)  
You say you got them drugs but I've never seen you slang (Slang)  
You say you in the game but I've yet to see you play (Play)  
You say you're going hard but nobody feels the same (SESH)  
You say you got them guns but I've never seen you bang (Bang)  
You say you got them drugs but I've never seen you slang (Slang)  
You say you in the game but I've yet to see you play (Play)  
You say you're going hard but nobody feels the same, yeah

[Outro]  
What? What? What? What?  
What? What? What? What?  
What? What? What? What?
