

Bonnie Tyler, All I Need Is Love

(Stuart Emerson/Stuart Emerson)

There's nothing wrong
Wrong with me
I'm just a little down and out
Don't need a drug to rescue me
That's something I can live without

[Bridge:]
One day I'm up, the next I'm down
One day you're here, the next you're gone
And I'm just a little bit
I'm just a little bit lonely

[Chorus:]
All I need is love
And I'm gonna pull through
All I need is love
To shake off the blues
I need your sweet, sweet love
To get me on my feet
Baby, you're love is all I need

There's no horizon
That I can see
There is no light in the dark
There's no one here
Here but me
And the longing in my heart

[Bridge]
[Chorus]

[Solo]

[Chorus]
