

# Bonnie Tyler, Here She Comes

(Pete Bellotte, Giorgio Moroder)

Shade begins to steal the light  
Confusion throws another mystery  
It's out for focus with eye  
So now you wonder is this just a dream

Here she comes, here she comes  
She's gonna cause a sensation now  
And just between you and me  
I think she'll soon have you temptation bound  
Here she comes, here she comes  
It's the moment you've been waiting for  
See the face and see that smile  
You've never seen the likes of her before

Suppose-who knows  
She's not above suspicion  
Is she-maybe  
On some kind of secret mission-better listen

Somewhere-somewhat  
There's still some pieces missing  
I sense-I feel  
Trust my intuition don't rush into your decision

Now here's a riddle in a rhyme  
If she's the same how came she's different now  
The same old eyes but not the shine  
You know you're certain but you're full of doubt

Here she comes, here she comes  
She's gonna have you at her beck and call  
So why refuse, yeah why contend  
When all resistance is impossible  
This lady's serious make no mistake  
Face to face and eye to eye  
She'll cast a spell that you may never break
