Bonnie Tyler, I Believe In Your Sweet Love

If you want my love You've only got to take it And if you get my heart Do anything but break it

And if you want to know the truth I think about you all night And whatever I am doing You're never out of my mind

(chorus)

Whoa, I believe in your sweet love Whoa, I believe in your sweet love

There's a way you've got Something in the mixture As the night goes on You could become a fixture

Chorus

I believe Oh, I believe

If you want my love You've only got to take it And if you get my heart Do anything but break it

Chorus/I believe, I believe (back and forth)
