

# Bonnie Tyler, I'm Only A Child

That's no way to say goodbye  
Oh, these tears will never dry  
This world is like a burning fire  
Baby can't we still be friends  
Till it ends there is no end  
Baby can't you see my deep desire  
Always forever - babe I'll keep trying  
Always forever - to stop it dying  
(chorus)  
I'm only a lonely child  
Inside a lonely woman  
Come take my heart tonight  
Make the clouds disappear  
I'm only a lonely child  
Inside a lonely woman  
My heart is burning wild  
I'm fighting my fears  
Nothing going on our way  
Darling can't you hear me say  
Only a strong love will stay forever  
Rain is such a lonesome sound  
In the city of the lost and found  
We better try hard to get together  
Always forever- babe I'll keep trying  
always forever - to stop it dying
