Bonnie Tyler, Time Mends A Broken Heart

I'm living in another time another place I knew you then It used to be a different World And now I start to live again A sight of heaven in a grain of sand Leading me on taking me by the hand

Time mends a broken heart Time mends a broken heart Love tears it all apart But time mends a broken heart

I see you in another life
There's someone else that I didn't know
It used to hurt me deep inside
I had to learn to let you go
I thought that happiness was by your side
I didn't know that it was here in me
And still alive

Time mends a broken heart Time mends a broken heart Love tears it all apart But time mends a broken heart

Time mends a broken heart Time mends a broken heart Love tears it all apart But time mends a broken heart
