

# Bonnie Tyler, Too Good To Last

You could have saved my life  
You could have brought me love  
You could have been so right  
You fitted me like a glove

You could have been the sun  
That shone on me everyday  
You could have been the one  
To take me away

But you were too good to last  
Baby you were too good to last  
The one you love was in the looking glass  
And you were too good to last  
Oh yeah too good to last  
You're too good to last  
The one you love was in the looking glass  
And you were too good to last
