

# Born Cages, Caiti

You spread your disease  
Got me down on my knees  
I know you like it  
I know you really like it

I wanted to steal ya  
From all that was real  
I know you like it  
I know you really like it

But you don't know how it goes  
Yeah, you don't know rock and roll

'Cause baby if you ever think what if,  
If you ever think of me  
I'll be writing songs about myself  
For everyone to sing  
Singing 'ooh?  
You'll be singing too

I see you dressing up to dress down,  
Like a wannabe queen in her crown  
I know you like it  
I know you really like it

Yeah you just wanted all the boys in the world  
To fill your little heart up with gold  
I know you like it  
I know you really like it

But you don't know how it goes  
Yeah, you don't know rock and roll

'Cause baby if you ever think what if,  
If you ever think of me  
I'll be writing songs about myself  
For everyone to sing  
Singing 'ooh?  
You'll be singing too

Yeah Caiti I've been putting off writing you this song  
'Cause when I met you I wanted to start a band  
And make noise for you to sing along to  
Well I did it honey, I wrote that melody  
To get that big advance  
From the record company  
But I'm eight years late now, baby  
So I guess I'll have to spend it all on me

'Cause baby if you ever think what if  
If you ever think of me  
Yeah, I'll be writing songs about myself  
For everyone to sing  
Singing 'ooh?  
You'll be singing too
