

# Born Of Osiris, Abstract Art

Oh, great shapes  
You deserve this torture  
Oh, great shapes  
You deserve this  
End this conversation  
You've been so frustrated  
Get on the floor  
Torn and beaten, your life lies in my hands  
A life once wasted  
Nothing to bring it back  
You and I withstand broken visions  
Search and destroy and we don't even give a fuck  
This is over with  
Your life lies in my hands  
Fade away, don't be afraid
