

# Boy George, If I Were U

(The chance to live your life)  
(The chance to live your life)

You live your life in desperation  
I tried but could not break your will  
Regret and endless conversation  
It hurts to see you standing still

But if you had the chance to live your life again  
Would you squander your beauty and intelligence  
Take a look in the mirror now cause every word is true  
I'd be afraid if I were U  
If I were U

You pass the blame to those around you  
Look in the mirror, face the truth  
I tried to help, I tried to ground you  
You had such beauty in your youth

(But if you had the chance to live your life again)  
(Would you squander your beauty and intelligence)  
(Take a look in the mirror now cause every word is true)  
(I'd be afraid if I were U)

But if you had the chance to live your life again  
Would you squander your beauty and intelligence  
Take a look in the mirror now cause every word is true  
I'd be afraid if I were U  
If I were U
