

# BoyWithUke, Route 9

Funny that I fall apart  
When I streamline route 9  
With my car  
I scream  
Insomnia won't keep me up  
But when morning comes  
I'm almost out of steam  
I hold on to all my vices  
While my head is in a crisis  
I hurt my feet  
And I dot my t's  
And I clean my room like twice a year  
When I'm breaking down  
I'm a sex machine  
In my dreams

Ohhhh  
Please don't ever leave  
I said please don't ever leave  
Ooo ooo ooo ooo oo  
Please don't ever leave  
I said please don't ever leave

I drive by Lincoln Avenue  
When I feel down just to look at you  
I know  
That it's strange  
And when the light comes shining through  
The sky, I felt it coursing through my veins  
I switch lanes

I don't listen to the voices in my head  
I'm going Mach 1 on route 9  
And I cleaned my room for the second time  
This year, you asked me how I was  
"I'm fine"  
I lied

Oh please don't ever leave  
I said please don't ever leave

Funny that I fall apart  
When I streamline route 9  
With my car  
I scream  
Insomnia won't keep me up  
But when morning comes  
I'm almost out of steam  
I hold on to all my vices  
While my head is in a crisis  
I hurt my feet  
And I dot my t's  
And I clean my room like twice a year  
When I'm breaking down  
I'm a sex machine  
In my dreams
