

# Boyz II Men, A Joyous Song

Love over flows around this season  
Our hearts find pleasure in the simplest of things  
It brings joy to a child  
When he sees all the decorations hanging all around  
The birthday of our king  
We sing praises to you

People gather around to see a tree  
Light up the sky for all of the world to see  
Of all the holidays that exist  
None makes more happier than this one

Chorus:

I see love all around this world  
In every man, woman, boy, and girl  
The time is so right and I'll say  
Thank you Lord  
It's so great to be alive  
Because it's all about love

As we sit around the fire place  
Windows fill with snow as it flutters down and gives the ground a glow  
I feel your kisses  
Your warm embrace  
Kneeling as we pray  
To thank our Lord for what he's done for us  
Time stands so still  
As I touch your hand it says things to me words never will

I feel it (it's easy to feel) peace all the way inside  
Joy from a stranger as he walks by and says  
Hi, Merry Christmas to you and yours  
May you receive everything you wish for and more  
I see love

Chorus (repeats five times)
