

# Boyz II Men, The Birth Of Christ

Well they traveled over hills and mountains  
On a cold December night, just like this  
For they knew what was going to happen  
Mary would give birth to the Prince of Peace  
Our Lord

From the manger what they saw in a distance  
Was the misty silhouette of three kings  
Bringing all the most precious jewels to a Savior  
Knowing he would soon be called the King of kings  
Our Lord

On Christmas day  
They saw a star in the east and followed it  
On Christmas day  
That marked the birth place of our Lord and Savior  
Jesus Christ

All free from sin  
Here to give us a chance at everlasting life again  
So the world  
So cold you better let him in  
To your heart

From the sight of the blessed child was full of beauty  
As they looked upon the one who would save our world  
To their knees, they dropped and started to worship  
Giving thanks to God above for the Prince of Peace  
Our Lord

No one knew back then that on that evening  
That the miracle of miracles came true  
That our God above would come down from heaven  
In a form a child that would set us free  
Our Lord
