In a minute we'll be finished

Was I all that you want and dreamed?

Was it strong enough?

To make you feel me?

Did I dig too deep in your mind?

You were thinking of ways to make me work for something people wanted.

All through the night all I heard you say was...

Course

Now that we're done

What are you thinking?

Should we talk about it maybe?

You look so beautiful like this

With the moonlight shining on you

What has come over me?

Oh you feel so good Oh you feel so good.

Course 2x

Toss and turn

Back and forth

The love goes

As the night flows

Ever so smoothly

I move you as you groove me

Taking our time as our bodies

Join to extract to pure satisfaction

Holdin' and moldin' while I'm watchin' your reactions

To pure bliss, as I rub and kiss

Every pleasure kept for moments like this

Course 5x (fade out)
