

# BRAIN'S ALL GONE, Bitches (Do As Bitches Are)

Everybody has his vices  
Some are stupid, some are fat  
And our souls in all their pieces  
They are bitchy, they are flat

Bitches do as bitches are  
All this shit they do with style  
Bitches do as bitches are  
All this shit they do with style

Every man we've ever met  
Had his pretty point of view  
If they knew that we are bad  
They would have changed us for some new

Bitches do as bitches are  
All this shit they do with style  
Bitches do as bitches are  
All this shit they do with style

We'll be bitches till the end  
Nothing's gonna change our way  
If that's something you can't stand  
Just get the fuck out, okay?

Bitches do as bitches are  
All this shit they do with style  
Bitches do as bitches are  
All this shit they do with style
