

# Brandon Hines, We Need We

[Verse 1:]

This is serious  
I think I love you more than me  
It doesn't end with us  
We can build a family  
Girl I love you much  
And I know everyone can see  
Girl you know with me we gon always be together

[Chorus:]

You need me  
Cause baby I'll hold you down through the trials (through the trials)  
I need you  
Through the worst of the weather we will stick together  
We need we  
If we get to ourselves than we can get through the problems  
We need we  
I'll be loving you forever  
Cause I couldn't breathe without you here with me  
No I couldn't breathe without you here with me

[Rap:]

Visions of you as I embark down memory lane  
Picturing the past events from whence my memory came  
To watch you grown into a woman was a beautiful thing  
Knew you was special ever since I took you under the wing  
Whether rain, sleet, or snow, hail, drought, you held me down when all my phony homies would ba  
I wanna wine and dine you in the islands let's sail out Your love for me is what kept me up out the j  
I couldn't open up my heart for all them other broads Cause every time I think of you she just anoth  
I feel I had to tell you this before my love is gone girl  
All I wanna do is love you from dusk to dawn  
You said yourself it ain't the same since we split  
Ain't the same since we chilled  
Ain't the same since we kissed  
Your presence in my life brings my spirit revival  
It ain't hard to tell baby even B.Hines know that

[Chorus:]

You need me (oooohhh)  
Cause baby I'll hold you down through the trials (through the trials)  
I need you  
Through the worst of the weather we will stick together (we will always be together baby baby)  
We need we  
If we get to ourselves than we can get through the problems  
We need we  
I'll be loving you forever  
Cause I couldn't breathe (no I could'ntbreath) without you here with me  
No I couldn't breathe without you here with me (I can't breath without you girl I need you in my life.)
