

# Breaking Benjamin, Evil Angel

Hold it together, birds of a feather  
Nothing but lies and crooked wings  
I have the answer, spreading the cancer  
You are the faith inside me

No, don't  
Leave me to die here, help me survive here  
Alone, don't  
Remember, remember

Put me to sleep, evil angel  
Open your wings, evil angel

Aah!

I'm a believer, nothing could be worse  
All these imaginary friends  
Hiding betrayal, driving the nail  
Hoping to find a saviour

No, don't  
Leave me to die here, help me survive here  
Alone, don't  
Surrender, surrender

Put me to sleep, evil angel  
Open your wings, evil angel

Ohhhh....

Fly over me, evil angel  
Why can't I breathe, evil angel?

Put me to sleep, evil angel  
Open your wings, evil angel

Ohhhh....

Fly over me, evil angel  
Why can't I breathe, evil angel?
