

Breaking Benjamin, Medicate

I got somethin' up my sleeve
I know you will cover me
inside out and in between
I know you will cover me
I've got bruises on my knees
I know you will cover me
inside out and in between
and I know you will cover me

Run away
make hate
We get laid
We get laid
you tie me up
I've had enough
so medicate
medicate

I'm already incomplete
I know you will cover me
broken by your empathy
I know you will cover me
I've been lyin' here for weeks
I know you will cover me
inside out and in between
and I know you will cover me

Run away
make hate
We get laid
we get laid
you tie me up
I've had enough
so medicate
medicate
