

Brenda Lee, Do I Worry (Yes I Do)

Oh when you come home late with hardest reason
When you kiss me like your hardest reason
Do I worry do I worry do I worry
And when the songs you sing are sad and lonely
When you sit at home forget to phone me
Do I worry do I worry do I worry
Where do you go when you're not with me
There's a look in your eyes I don't like to see
Why don't you hold me like you use to do
I got a whole lot of loving just for you
But when your loving lips don't taste the same
And when you call me someone else's name
Well do I worry do I worry yes I do
Where do you go when you're not with me....
Over you I worry over you
