Brenda Lee, Do You Wanna Spend The Night

We got the whole night to ourselves soft music to play First look and I fell in love You just blew me away Your eyes tell me everything True expressions don't lie This moment in time is ours, but it's passing us by

Do you wanna stay, do you wanna spend the night Do you wanna just make love Or do you wanna spend the night

You make me fell easy
Easy such a nice style
Tonight is that magic time
That comes once in a while

Do you wanna stay, do you wanna spend the night Do you wanna just make love Or do you wanna spend the night

Do you wanna stay, do you wanna spend the night Do you wanna just make love Or do you wanna spend the night

Do you wanna stay, do you wanna spend the night Do you wanna just make love Or do you wanna spend the night
