

Brenda Lee, When You Loved Me

When you loved me
You took the stars
Down from the skies
Then you put them
In my eyes, when you loved me
When you loved me
I knew I never can explain
Darling I heard
The angels sing, when you loved me
But now all the stars
Are back in the skies
I sent you away
And I made the angels cry
When you loved me
I was a fool too blind to see
You made the world
Turn just for me
When you loved me, when you loved me
