

Brian Jonestown Massacre, Jennifer

Jennifer I,
was talkin to you
you said you could fly
I believe in you

Right over our heads while i was sleeping
you said that the clouds were always weeping rain.

Jennifer jenn
lets make it come true
I don't wanna lie
or be cruel to you

right over my bed while I was sleeping you said that the clouds were always weeping rain

I like to show you but I don't know what to do

I'd love to show you but i don't know what to do
again
I'd love to love you but i don't know what to do
again

I know it seems the worlds aganist our dreams don't let it bring you down

It's complicated just remember that I'll always be around
