Brian Jonestown Massacre, Jennifer

Jennifer I, was talkin to you you said you could fly I believe in you

Right over our heads while i was sleeping you said that the clouds were always weeping rain.

Jennifer jenn lets make it come true I don't wanna lie or be cruel to you

right over my bed while I was sleeping you said that the clouds were always weeping rain

I like to show you but I don't know what to do

I'd love to show you but i don't know what to do again I'd love to love you but i don't know what to do again

I know it seems the worlds aganist our dreams don't let it bring you down

It's complicated just remember that I'll always be around
