

# Brighter Colours, Slow Down

It feels like it was yesterday  
I was making my way home  
When I stopped to get some groceries  
For a dinner on my own

With my trolley through the alleys  
I was walking, feeling blue  
It was then, do you remember  
For the first time I saw you

After couple years together  
On a trip down to the sea  
We were walking on the beach  
And sand was burning our feet

With a sunset in the distance  
You were all that I could see  
It was then do you remember  
When you dropped down on one knee

Time, slow down, you're moving too fast for me

Now it's seventeen years later  
Couple homes, a couple kids  
Gotta lovely life together  
It is all that I could ever wish

With a sunset getting closer  
You are everything I need

I wish that time could slow it down  
Here is where I want to be
