Bring Me The Horizon, Blessed With A Curse

Ever since this began, I was blessed with a curse.
And for better or for worse I was born into a hearse.
I know I said my heart beats for you. I was lying girl, it beats for two.
Because I got your love and I got these vices.
Take back every word I've said, ever said to you.
Take back every word I've said, ever said to you.

Ever since this began, I was blessed with a curse.
And for better or for worse I was born into a hearse.
I know I said my heart beats for you. I was lying girl.
I've been lying to you...

Everything I touch turns to stone.
So wrap your arms around me, and leave me on my own.
Everything I touch turns to stone.
So wrap your arms around me, and leave me on my own.

Take back every word I've said, ever said to you. (4x)
Because everything I touch turns to stone.
So wrap your arms around me, and leave me, I can't hold on.l

Take back every word I've said, ever said to you.
Take back every word I've said, every word I've said.
Take back every word I've said, ever said to you.
