Bring Me The Horizon, medicine

some people are a lot like clouds you know cause life's so much brighter when they go you rained on my heart for far too long couldn't see the thunder for the storm because I cut my teeth and bite mt tongue till my mouth was dripping blood but I never dished the dirt just held my breath while you dragged me though the mud I don't know why I tried to save you cause I can't save you from yourself when all you give a shit about is everybody else and you just can't quit why don't you deal with it? I think it's time to stop

you need a taste of your own medicine cos I am sick to death of swallowing watch me take the wheel like you not feel like you act like nothing's real like you so I am sorry for this it might sing a bit

some people are a lot like clouds you know cause life's so much brighter when they go you rained on my heart for far too long couldn't see the thunder for the storm

but you won't admit why don't you get a grip cause you can't keep going on an on and on like this no you just can't quit why don't you deal with it? I think it's time to stop
