

# Bring Me The Horizon, Obey with YUNGBLUD

Another day another post-traumatic order  
(brainwashed and feeling fine)  
I bit off more than i could chew when i looked closer  
So i stabbed a fork in my eye  
Think i am losing my fucking mind  
Don't know where to turn  
Now i am blind  
Destroy yourself it feels so good to fade aay  
Why, d'you want to hurt yourself?  
Die, for something else?  
Don't let you concience get in the way

Obey  
We hope you have a lovely day  
Obey  
You don't want us to come out and play  
Away, now, now  
There's nothing to see here  
It's undercontrol  
We're only gambling with your soul  
Obey  
Whatever you do  
Just don't wake up and smell the corruption

Another day another systematic nightmare  
Commemorate a wonderful life  
Bite me first i'll bite you back  
Melodramatic laughter  
I stabbed a knofe in my eye  
Think i am out my fucking mind  
Braindashed and i am feeling fine  
Destroy yourself it feels too good to fade away  
Why do i want to hurt myslef?  
Should i die for something else?  
I let my concience get in the way

Obey  
We hope you have a lovely day  
Obey  
You don't want us to come out and play  
Away, now, now  
There's nothing to see here  
It's undercontrol  
We're only gambling with your soul  
Obey  
Whatever you do  
Just don't wake up and smell the corruption

When your freedom is lethal  
Tell me how you're going to hurt yourself  
You call yourself peaceful  
You monster are people

You fucking monster are people  
Obey  
We're gonna show you how yo behave  
Obey  
It's nicer whne you can't ee the chains
